PAY 2024

Last year, Unite members led the way in securing an unprecedented pay deal in NatWest Group by standing together and campaigning for a fair pay rise. We need to build on last year's success to make sure that NatWest workers get the pay rise they deserve in 2024.

Unite is a member-led trade union, which means your reps need to know what you want from these pay talks.

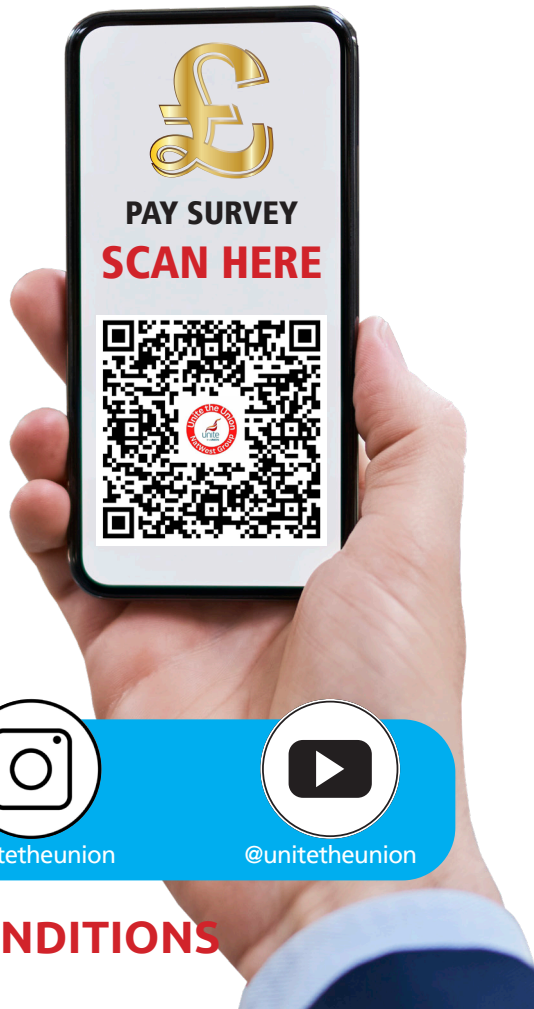
From cost of living rises, debt and fair pay -have your say by answering our survey here: https://surveys.unitetheunion.org/FinanceCombine/natwest-pay-survey

Unite's ability to win better terms and conditions for NatWest workers comes from our membership strength.

If you are not yet a member, it's time to join and be part of our winning team: www.unitetheunion.org/join

Unite members will also vote on whether to accept or reject any final pay offer.

All information submitted as part of the pay survey will be treated with strict confidence.



HAVE YOUR SAY!

With profits for 2022 in excess of £5bn and half year results for 2023 in excess of £3bn, we believe NatWest Group can afford a substantial pay rise, what do you think?
